Sur ma branche feature, j'ai ajouté deux fonctions, `get_first_date` et `get_last_date`, pour afficher la première et la dernière date des données de l'instrument et du benchmark. En faisant `git diff main..feature/display-observation-dates`, je vois bien que ces ajouts existent sur ma branche et pas sur `main`. C'est normal, puisque j'ai fait mon commit sur la branche feature et que je n'ai pas encore fait le merge. Si j'abandonnais cette branche maintenant, `main` ne changerait pas du tout. Je perdrais les dates, mais le projet continuerait de marcher comme avant. C'est pour ça qu'on travaille sur une branche à part.
